

Jen Winterfeldt

Jen was raised in Belle Plaine, MN and went to St. Olaf College (you know that other school in Northfield, MN) where she graduated with majors in Family Studies and Women's Studies. Twelve months after graduating from St. Olaf, Jen found herself back in Northfield where she works as the Youth Development Coordinator for the Northfield Public Schools. Jen believes teens have a unique perspective that should be taken into account in all facets of the world around them and is excited to see what teens and staff can coordinate together for the teen program for reunion weekend

Jason Hallen '08

Jason grew up outside of Chicago and came to Northfield, MN to attend Carleton College. He graduated from there in 2008 with a major in Sociology/Anthropology. Being such a fan of Northfield, he stuck around to work as an AmeriCorps Promise Fellow at Northfield Middle School, a job which has him helping to coordinate youth programming in the Northfield school district. He's very excited to hang out, fly kites, and bake cookies with all the kids who come to the teen program this year.
