An official psyche sheet and meet program will be included in each team's registration materials. Heat sheets for the following day's competition will be available on a limited basis Wednesday after dinner and before the completion of the Thursday and Friday finals.

OPTIONAL ENTRIES

Optional entries in individual events will be accepted until the entry deadline and must be submitted via the online entry process. Any institution that has four swimmers who have qualified for the meet may enter any of the five relays. Relay-only swimmers may swim optional entries in a maximum of three (3) individual events if a B-time standard has been achieved in the respective event. For additional information, refer to the 2006 NCAA Division III Swimming and Diving Championships Handbook.

CONFIRMATION

Upon arrival at the University of Minnesota Aquatic Center, the coach or an official representative from the institution must register and pick up an entry list and other pertinent championships materials. The coach or representative must sign an official receipt form indicating a correct entry of the individual/team as listed on the entry list. The registration desk will be located in the Radisson Hotel Metrodome. Registration hours are listed on the meet schedule.

DECK PASSES

Deck passes will be issued to institutional personnel (e.g., coaches, assistant coaches, official representatives, athletic trainers and managers) who have fulfilled a role with the institution's swimming and/or diving program on a regular basis throughout the season and who will be on the deck in a working/coaching capacity. A limited number of additional deck passes may be purchased by institutional personnel. The allocation of deck passes is based on the number of student-athletes participating for each institution. An institution with one to eight participants will be issued one deck pass and have the opportunity to purchase up to two additional passes. An institution with nine or more participants will be issued two deck passes and have the opportunity to purchase up to four additional passes. Please note that an institution with at least one swimmer and one diver will be issued two deck passes (i.e., a second pass for a second coach) and have the opportunity to purchase additional deck passes based on the total number of participants. Institutional personnel who purchase deck passes must also purchase a ticket for admittance. Payment for the permissible additional passes must be made on site at the registration desk by cash or check payable to Carleton College. The additional passes will be \$5.00 each. Coaches and/or student-athletes who lose deck passes will be charged the cost of an all-sessions pass for a replacement.

Institutional personnel authorized to have deck passes must conspicuously display the passes at all times. Anyone on deck without a pass will be asked to leave immediately—no exceptions.

Deck passes are non-transferable. Institutions that provide deck passes to unauthorized personnel during the championships will be fined \$100.

SCRATCH DEADLINE

Scratches are to be made by the coach or official representative by depositing scratch slips in the scratch box by the designated deadlines. A receipt form will be used for scratch verification. All entries not scratched will become official entries. Each diving coach or official representative must also submit a list of dives by the scratch deadline.

The athletic training staff will staff an athletic training room, which is located just off the deck of the pool facility. They will be able to provide preventative care, treatment procedures and immediate injury care. The preventative care and treatment procedures are available provided that we are presented with a written request from your certified athletic trainer or licensed physician outlining the diagnosis, treatment protocol and/or any special medical requests.

If your certified athletic trainer accompanies your team to this event, he/she will be provided access to the modalities and ice. We request that you bring the necessary supplies for any special treatments or preventative requests so that the appropriate materials will be available to meet your needs.

If you have any questions, please contact me. My office phone number is 507/646-7371.
