This is only an outline of plan benefits. The contract and certificate include complete details of what is and isn't covered. Services not covered include items primarily used for non-medical purposes, over-the-counter drugs/nutritional supplements, services that are complementary, experimental, not medically necessary, or covered by workers' compensation or no-fault auto insurance. Pre-existing conditions may not be covered for a limited period of time. This limit is reduced by prior continuous coverage and doesn't apply to pregnancy, newborns, adopted children or handicapped dependents. We feature a large network of health care providers. Each provider is an independent contractor and is not our agent. Nonparticipating providers do not have contracts with Blue Cross and Blue Shield of Minnesota. Blue Cross and Blue Shield of Minnesota is an independent licensee of the Blue Cross and Blue Shield Association.
