

Using the Jazz Discography

Available by going to the library's website and clicking:
 "Find" > "Online Reference" > "Jazz Discography"

Looking for...

- ... **artists?** Use the **Leader** or **Musician** search.
- ... **versions of a tune?** Use the **Tune** search.
- ... **instrumental use?** Use the **Word Search**.
- ... **recording location?** Use the **Word Search**.
- ... **recordings by date?** Use the **Date Search**.
- ... **an album?** Search by artist or specific tune from the album.

At the top of every screen, you'll see this toolbar:

Leader

Search by musician/group name. This drops you into an alphabetical index of the names groups and group leaders.

Click on the name to view a chronological list of recording sessions.

Session

This database has assigned each session it's own unique number, which can be searched here.

After you've arrived at a list of recording sessions, two more options appear in this section:

- **"Date Search"** allows you to narrow your current search to a time period you specify.
- **"Index"** allows you to narrow your current search to one of a list of possible dates.

Musician

Specifying a name will drop you into an alphabetical index of musicians' names.

Click on a name to view a chronological list of recording sessions.

Tune

Search for a tune name. This will drop you into an alphabetical index of tune names.

Click on a name to view a chronological list of recording sessions where that tune was recorded.

Multi-Search

Search:

Specify up to 3 musicians' names and up to 3 tune names.

Date:

Specify any combination of Year, Month, and Day. Use numbers without preceding zeros. (*i.e. March is "3"*)

Word Search:

In addition to searching across the Leader, Musician, Tune, and Session fields, this allows you to search by instrument abbreviation,* nationality, session location, session notes, and the like.

If you wish, you can type "OR" between terms to signal that you want records containing **either one or both** of the terms you enter.

Record Label

Searching by company name or release code will drop you into an alphabetical list of labels.

Click on the name to see a chronological list of sessions.

Click on the session name to see musician and tune details.

Abbreviated **instrument** names* follow performer's names (in parentheses).

Matrix Numbers (if available) identify unique takes.

Label and album numbers

Names of **musicians** and **tunes** are clickable.

Clicking here will perform a new search for the musician or tune and present you with a new chronological list of sessions.

• This database is designed so that result screens nearly always give you either chronological or alphabetical context for your recording session, artist, or tune.

• Group names are considered "last" names in the Leader search.

• Only 5 people may use this resource at once. Please remember to log out when finished.
