

University of Pittsburgh

Summer Research Fellowship

2010 ASPET Summer Undergraduate Fellowship Program

The Department of Pharmacology and Chemical Biology at the University of Pittsburgh invites your application to our Summer Undergraduate Research Program. Research fellows will perform guided, independent research, attend seminars, and present their data at a scientific forum. This program is an excellent opportunity for talented undergraduates considering a career in biomedical research.

The ten-week program (May 24th—July 30th) offers a competitive stipend of \$3,500.

Additional funding for housing and travel may also be available.

To apply, please visit the web site:

<http://www.pharmacology.us/>

Admissions decisions will be made on a rolling basis and competitive applicants are encouraged to apply early. The application site opens November 1, 2009 and applications will be reviewed that are completed prior to March 1, 2010
