Page - Student Engagement with Curricular Support

Members of the Carleton community are currently discussing ways in which the College might improve the way it provides curricular support to students. This brief survey will provide the College with important information about the ways in which students work on course assignments. Your participation will help ensure that as Carleton enhances curricular support, that we will do so with a clear understanding of how Carleton students actually work.In the course of this survey you will be asked to describe your experiences completing two types of assignments. You will be asked about the time of day, locations, and sources of support associated with your work on each assignment.Reports or publications of the findings derived from this study will not contain personally identifiable information. The survey should take no more than ten minutes to complete and is entirely voluntary.Thank you for taking the time to share you thoughts! If you have any questions along the way, please feel free to contact me directly.Andrea NixonDirector of Curricular and Research SupportCarleton Collegeanixon@carleton.edu(507) 222-4043
