Special Events

We try to go on trips that explore science and Minnesota each summer. Some of the trips are the same, while we try to add or change some of the trips each year. In the past, we have gone to the MN zoo, canoeing, Mall of America and other exciting destinations.

In addition to these trips, we try to create a dynamic environment on campus that allows students to take in movies, games, theater and special performances happening in the Northfield area.

We want to make sure you're academically challenged while trying to balance that with some fun activities as it is your summer vacation and you should have some fun outside the classroom with the friends you make at the Institute!
