Dear Carleton College Alumni and Friends,

June 22-29, 2008
Aboard the Sea Bird

Lindblad Expeditions is ranked #2 in the 2006 Travel + Leisure Cruise Lines Tour Operators Award. It received a 93.9 score for Destinations/U.S. postage paid, 96.2 for Service, and 89.3 for Activities.

Carleton College Alumni Affairs Office
One North College Street
Northfield, MN 55057

Aboard the June 22-29, 2008 Sea Bird, you’ll experience the freedom that only a small ship can provide — the freedom to be flexible, mercurial, to follow a line of humpback or orca whale or go ashore and explore the forests of a particular cove. From the unique vantage points of kayaks and naturalist-led Zodiac cruising craft, you’ll observe glaciers closer than ever and hike to explore remote islands.

Lindblad Expeditions is known for bringing the underwater team to you - a fascinating, close-up view. The hydrophone will be lowered into the water to allow you to hear their vocalizations. The wildlife will be showered with micro-ecosystems upon which to exercise in the ship’s library and allow you to view them in their own natural habitat, respecting the environment. To find out whose company you’ll be sharing, please visit http://www.expeditions.com/CarletonAlaskaTerms.pdf.

Explore Alaska’s Coastal Wilderness

June 22-29, 2008
Aboard the Sea Bird

Experience Alaska Up Close with Our Expert Team

We want to give you the time and the ability to experience beauty and wilderness at Alaska’s up-close core. Our onboard naturalists and historians will lead you to understand the life, plants, native cultures and history of this region. They’ll answer your questions and help you make the most of your journey.

And you’ll travel informally, a good pair of walking shoes, binoculars, a camera and a sense of spontaneity and fun for the best journey of your life.

Search for whales, bears, sea lions, otters and puffins in a place where eagles outnumber people and where no two days will be alike. You’ll come away refreshed and renewed, and with a much deeper understanding of the great land we call home.

You’ll be pleased by how deep our team respects the environment. To find out whose company you’ll be sharing, please visit http://www.expeditions.com/CarletonAlaskaTerms.pdf.

Wellness with nature in mind

After a morning of kayaking or a lazy day on deck, experience the escape of massage and other wellness treatments.

from its high glacially-carved walls. Meander among the icebergs, looking for black bears feeding along the shoreline and mountain goats scaling the steep granite cliffs. See the Alaska SeaLife Center, home to the largest polar bear exhibit in the world. (B, L, D)

Day 6: Glacier Bay National Park

Glacier Bay is the largest marine national park and preserve in the United States. This 13-million-acre wilderness area is a land of fjords and islands literally carved by the action of the sea. Explore the park on a small ship cruise or by a one-hour floatplane tour. Dozens of icebergs float within the park, creating an opportunity to see and hear these giants up close. (B, L, D)

Day 7: Icefield.Exploration

From tidewater glaciers, to ice caves and rock walls, our专家 guide takes you on a journey into the land of the ice巨. You will see some of the most dramatic landscapes on Earth, with an awe-inspiring perspective on where we’ve come from and where we’re going. (B, L, D)

Day 8: Sitka

From Sitka, visit historic St. Michael’s Russian Orthodox Cathedral, dedicated to St. Michael the Archangel, who is the patron saint of Sitka. The cathedral is located near the north end of the town. (B, L, D)

Day 9: Fairbanks

From Fairbanks, take a scenic flight to the remote village of Nenana, and enjoy the beautiful views of the surrounding mountains. The flight will take you past some of the most remote areas in Alaska, including the Brooks Range. (B, L, D)

Day 10: Anchorage

Depart Anchorage with your guide to the Northern Lights! The northern lights, or aurora borealis, are one of the world’s most spectacular natural phenomena. Watch as the sky above you is painted with hues of red, orange, yellow, green, and blue, creating a breathtaking display. (B, L, D)

Day 11: Glacier Bay National Park

End your journey with a visit to the world-famous Mendenhall Glacier. This glacier is located within the Glacier Bay National Park and Preserve, and is one of the most accessible glaciers in the world. You’ll have the opportunity to hike to the glacier’s edge and see icebergs up close. (B, L, D)

Day 12: Anchorage

Depart Anchorage with your guide to the remote village of Nenana, and enjoy the beautiful views of the surrounding mountains. The flight will take you past some of the most remote areas in Alaska, including the Brooks Range. (B, L, D)

Day 13: Anchorage

End your journey with a visit to the world-famous Mendenhall Glacier. This glacier is located within the Glacier Bay National Park and Preserve, and is one of the most accessible glaciers in the world. You’ll have the opportunity to hike to the glacier’s edge and see icebergs up close. (B, L, D)

Day 14: Fairbanks

Depart Fairbanks with your guide to the remote village of Nenana, and enjoy the beautiful views of the surrounding mountains. The flight will take you past some of the most remote areas in Alaska, including the Brooks Range. (B, L, D)

Day 15: Anchorage

End your journey with a visit to the world-famous Mendenhall Glacier. This glacier is located within the Glacier Bay National Park and Preserve, and is one of the most accessible glaciers in the world. You’ll have the opportunity to hike to the glacier’s edge and see icebergs up close. (B, L, D)
