**Daily Brain Teaser**

A teacher decides to give a pop quiz, but all of her students refuse to take the quiz, thinking that she will call it off. She can give only one of these students a detention for skipping the quiz. All of the students know each other’s names and if a student knows that they are getting a detention, they will take the quiz.

How can she threaten her students with the single detention but ensure that they all take the quiz?

Last Wednesday’s Riddle Answer

1
11
21
1211
111221
312211

What is the next number in the sequence?
13112221.

Each number describes the digits of the previous number.
For instance, the second line describes the first line -- one
1, hence 11. The third line describes 11 as 21 -- two 1’s. The
pattern continues.
