::Riddle Answer::
A man is sitting in a pub sees the man next to him pull a wad of £50 notes out of his wallet.
He turns to the rich man and says, ‘I have an amazing talent; I know almost every song that has ever existed and I will bet you all the money in your wallet that I can sing a genuine song with a lady’s name of your choice in it.’
The rich man laughs and says, ‘OK, how about my daughter’s name, Joanna Armstrong-Miller?’
The rich man goes home poor. The poor man goes home rich.
What song did the poor man sing?
Answer: Happy Birthday

STUDENT SPOTLIGHT – TIA KING ‘18

Describe your summer internship experience in 1 word.
My internship this past summer at Facebook was incredible.

Why are internships important?
Internships allow you to find out what type of company you would enjoy or not enjoy working at. It also helps you learn how to apply skills from school to jobs you might be interested in pursuing post-graduation.

What advice would you give students to stay on top of their internship game?
Ask questions without worrying about looking stupid because you have two options. You can either do things wrong, or you can get clarification on the work you’re tasked with and do things correctly. Also, start looking for internships early and gather the necessary materials so that when the time comes to start applying, you’ve practiced your interviewing and hands-on skills in advance and only have to worry about the application itself.

Attention Sophomores!

The Google BOLD Immersion application is live!
The Building Opportunities for Leadership and Development (BOLD) Immersion program gives students the opportunity to immerse themselves in a culture where great minds, cutting-edge technology and smart business intersect to make a difference—each and every day. Selected students will receive all-expenses-paid travel to one of Google’s headquarters for up to one week.
