STUDENT CAREER ADVISER SPOTLIGHT: Mike Sobaski ’15
One of my responsibilities at the Career Center is to help organize the Scholars trips, which has been really special for me. I trace most of my career growth back to that original trip freshman year. The conversations with producers from ABC World News and MSNBC, Sarah Palin’s book publicist, and countless other professionals allowed me to ask the questions I needed to understand what a career in the industry actually consisted of and how to best represent myself professionally. This gave me the confidence to seek out other exciting opportunities and apply to positions I might not technically be qualified for. In turn, this has ultimately helped me land a job at Amazon, where I’ll be working next year! The Career Center has helped me so much, and I can’t think of anything more rewarding than helping other students!

APPLY TO BE AN SCA!
See the Tunnel or visit us at the Career Center for details.
