STUDENT SUCCESS STORY OF THE WEEK: PETER MCNEELY ’13
“I ended up getting an externship through the career center, which then led to getting my current job. I was lucky enough to sit at my commencement knowing that I would start my desired career a week after walking across that stage. Being able to leave college and enter the real world with a set path made said world look a lot less scary and a lot more manageable. I would not have been in that position at all if it weren’t for the career center, the opportunities and services they provide, and the action I took to use them.”
