Peer Leaders at Carleton College

Carleton College employs hundreds of students in a variety of leadership roles. These student leaders are vital in providing important programs and services to the campus community. With the talent, energy and spirit of Carleton’s student leaders, the College stands well-poised to provide a true liberal arts education that challenges students to “learn broadly and think deeply.”

To this end, the Division of Student Life has developed a Peer Leader Integration Program, designed to unify and strengthen the efforts of its student leaders. This program has many overarching benefits, but emphasizes two main goals: 1) to develop a successful and inclusive combined Peer Leader Training Program; and 2) to identify how to best utilize the talent, energy and spirit of the student leaders in assisting fellow students in a collaborative manner. In pursuing these goals, we hope to build camaraderie among student leaders, promote greater understanding of the varied resources available to students, and ultimately lead to a higher level of student satisfaction and development.

New Student Week (NSW)

The purpose of New Student Week is to provide incoming students with experiences and information that prepare them to thrive both academically and socially in their first year at Carleton and beyond. We accomplish this through activities and interactions designed to introduce new students and their families to the values of the institution, as they are embodied in, and enacted by, the people, programs and lived experience of our campus. Our hope is that by the end of the orientation period, students have begun to situate themselves in this rich environment with a clearer sense of how their own talents and abilities can flourish and grow.

Specifically, new students should feel that they have one or more reliable sources of information for academic issues and institutional polices and regulations. They should have an awareness of the support
structures on campus for social, emotional, and physical health and well-being. They should begin to gain a first-hand understanding of the rewards and challenges of living and working within a diverse community and begin the process of making social connections within such a community. While students may not get all of their questions answered or anxieties addressed, we hope that they enter their first term confident that they can find the help and resources they need to succeed.
