Open Discussion:

- Bon Appétit would like feedback on the salad bar in Sayles. Each week there is a new theme (Cobb salad last week and spinach this week).
- ECO is working on waste, specifically in Sayles. Katie is not willing to buy plates. When we tried this last year, almost all of the reusable plates disappeared. If students really want to try reusable plates again, need to find a way to educate about reasons for doing this and how to make it work. Education is just not there to make it feasible. 50/50 are using “to go” containers and eating in Sayles. The staff are offering “to go” to each customer. Daytime orders are okay. At night there are so many orders that they can’t stack them unless orders are in clamshells due to space issues.
- End-of-term fridge/freezer items could be given to those staying around during break. Problem is there is no room in places where these students will be staying.
- CSA has opened a Food Pantry – Monday-Friday during breaks. It will be fully stocked and names of those using it will be kept confidential. Items will be purchased from Sam’s Club.
- How Dining Board can be utilized has changed. If students are having problems or issues, they come to Dining Board. If not, they don’t. Maybe posting table signs stating that Bon Appétit is looking for feedback. Katie discussed tabling on Tuesdays in dining halls to talk about food issues, etc. Checking into this for winter term.
