One benefits solution, up to six plan options to provide a range of coverages and costs to meet your health insurance needs in retirement.

Plans I and II: Comprehensive major medical insurance that builds on the foundations of Medicare Parts A and B, plus enhanced Medicare-approved Part D prescription drug coverage.

Plan III: The same comprehensive major medical benefits as Plan I, with a standard Medicare-approved Part D prescription drug coverage plan (Emeriti’s “best buy”).

Plan IV: Enhanced Medicare-approved Part D prescription drug coverage only plan.

Plan V: Standard Medicare-approved prescription drug coverage only plan.

Plan VI: A Private Fee for Service plan, with standard Medicare-approved Part D prescription drug coverage.

For more information, call 1-866-EMERITI.

Featuring:
- Group retiree medical plans priced more favorably than individual plans
- Access to any doctor or facility accepting Medicare
- Access to more than 90% of U.S. retail pharmacies
- Convenient, cost-saving mail order prescription service with substantial discounts
- Special protection against adverse drug interactions
- A members-only website to help you manage your care
- 24/7 health information from a registered nurse

Standard Medicare-Approved Part D Prescription Drug Benefit Plan
An Overview of How it Works

The standard plan design includes several stages of cost sharing by the individual enrollees and the plan. Enrollees will pay a monthly premium for the coverage, an annual deductible (Stage 1) and an initial level of coinsurance until their prescription drug costs reach a certain level (Stage 2). At that point, if they have additional prescription drug costs in that year they pay 100% of the costs (Stage 3), called “the Gap.”

Once the total True Out-of-Pocket expenses reach $3,850 (called TrOOP), if that level is reached, the plan provides catastrophic benefits of 95%, with the enrollee paying 5% for the rest of the year (Stage 4).

The following chart illustrates the Stages of the standard Part D plan, with the typical deductible and coinsurance amounts. (The Emeriti Part D benefits in Plans III, V and VI work this way.)

<table>
<thead>
<tr>
<th>STAGE 1</th>
<th>STAGE 2</th>
<th>STAGE 3</th>
<th>STAGE 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>YOU PAY FIRST $265 AS DEDUCTIBLE</td>
<td>YOU PAY 35% COINSURANCE</td>
<td>YOU PAY 100% OF DRUG COSTS</td>
<td>YOU PAY 5%</td>
</tr>
<tr>
<td>Your cost: $265</td>
<td>Your cost: $333.75</td>
<td>Your cost: $3,051.25*</td>
<td>Medicare pays 95%</td>
</tr>
</tbody>
</table>
* At the end of Stage 3, you will have paid $3,850 in True Out-of-Pocket (TrOOP) expenses (Stage 1+2+3), after which the catastrophic Stage 4 begins.

** Expenses the participant pays to meet Medicare Part A and B deductibles are eligible for reimbursement under the Emeriti Health Insurance Plan Options. Like all eligible expenses, that reimbursement is subject to the deductible specific to the participant's elected Health Plan Option.

** A formulary is a catalog of the prescription medications covered on a preferred basis. An open formulary means your pharmacy benefit covers drugs that are on the formulary as well as many drugs that are not on the formulary. A closed formulary means your pharmacy benefit does not generally cover drugs that are not included on the formulary unless your doctor obtains a medical exception from Aetna. You may view the formulary at [www.aetna.com/members/individuals/medicare/medicare_resources/covered_drugs.html](http://www.aetna.com/members/individuals/medicare/medicare_resources/covered_drugs.html). Once there, click on “Download the Aetna Medicare RX Preferred Drug List Now.”

*** Step Therapy is a process where in certain cases one or more clinically equivalent drugs must be tried before the prescribed drug is approved. Step Therapy is generally required when a prescribed drug is more expensive or has more serious potential side effects than other clinically equivalent drugs.

### Special Mediation per Medicare (CMS) definition are high cost, unique items like genomic and biotech products with a cost of at least $500 for a one-month supply.

WHAT’S NOT COVERED

These plans do not cover all health care expenses and include exclusions and limitations. Members should refer to their plan documents to determine which health care services are covered and to what extent. The following is a partial list of services and supplies that are generally not covered. However, your plan documents may contain exceptions to this list based on state mandates or the plan design or rider(s) purchased.

- All medical or hospital services not specifically covered in, or which are limited or excluded in plan documents
- Charges related to any eye surgery mainly to correct refractive errors
- Cosmetic surgery, including breast reduction
- Custodial care
- Dental care and X-rays
- Donor egg retrieval
- Experimental and investigational procedures
- Hearing aids
- Immunizations for travel or work
- In vitro fertilization services, including, but not limited to, artificial insemination and advanced reproductive technologies such as IVF, ZIFT, GIFT, ICSI and other related services, unless specifically listed as covered in your plan documents
- Non-medically necessary services or supplies
- Orhtotics
- Over-the-counter medications and supplies
- Reversal of sterilization
- Services for the treatment of sexual dysfunction or inadequacies, including therapies, supplies or counseling
- Weight control services including surgical procedures, medical treatments, weight control/loss programs, dietary regimens and supplements, appetite suppressants and other medications, food or food supplements, exercise programs, exercise or other equipment; and other services and supplies that are primarily intended to control weight or treat obesity, including Morbid Obesity, or for the purpose of weight reduction, regardless of the existence of comorbid conditions

Additional benefits provisions may apply based on state of residency. The plan is not available for institutions with 50 or fewer employees. Aetna will provide comprehensive coverage, including medical and prescription drug benefits, for institutions in 48 states and the District of Columbia. In addition, as a national PDP, Aetna will provide stand-alone prescription insurance for institutions in all 50 states and the District of Columbia. HealthPartners will provide comprehensive coverage for institutions and their retirees located in Minnesota. Emeriti will select a carrier to provide comprehensive coverage for institutions and their retirees in New Mexico.

This material is for informational purposes only and is neither an offer of coverage nor medical advice. It contains only a partial, general description of plan benefits or programs and does not constitute a contract. Aetna Life Insurance Company (Aetna) arranges for the provision of health care services. However, Aetna itself is not a provider of health care services and, therefore, cannot guarantee any results or outcomes.

These plans cover outpatient prescription drugs. Many drugs are subject to rebate arrangements between Aetna and the manufacturer of the drugs. Aetna receives rebates from the manufacturers of many drugs. These rebates do not reduce the amount the enrollee pays for an individual prescription drug. However, they help control the overall costs of prescription drug coverage.

The availability of a plan or program may vary by geographic service area and by plan design. These plans contain exclusions and some benefits are subject to limitations or visit maximums. Consult the plan documents to determine governing contractual provisions, including procedures, exclusions and limitations relating to the plan. While this material is believed to be accurate as of the print date, it is subject to change.
