SOME ADVANTAGES OF WORKING AT THE NEW YORK FED:
Research Associates enjoy the benefits of
- Interaction with leading economists and analysts on key policy and research issues.
- Eligibility for generous annual tuition reimbursement for individual courses, certificate programs, and graduate programs.
Research Associates have gone on to enter prestigious academic programs and accept challenging positions in business, banking, and public policy.

JOB RESPONSIBILITIES:
- Assist economists in planning and executing long-term research on a wide range of applied and theoretical topics.
- Perform advanced econometric, computational, and analytical research intended for publication in leading academic journals.
- Run financial, banking, macroeconomic, and international forecasting models and programs in statistical packages, such as SAS and STATA.
- Compile and assess information from academic journals, market sources, and government reports.
- Write memos and presentations on current economic and financial conditions and policy issues.

JOB REQUIREMENTS:
- Bachelor’s degree in economics, mathematics, statistics, or a related field.
- Demonstrated experience with large databases and statistical packages (SAS, Gauss, TSP, RATS, STATA).
- Strong analytical and decisionmaking abilities.
- Proven ability to provide effective verbal and written analysis.
- Legal authorization to work in the United States on a multiyear basis for other than practical training purposes.

Applications will be accepted on a rolling basis; however, interested candidates are strongly encouraged to apply by November 1, 2006. To apply, visit www.newyorkfed.org/careers.
