COURSE GOALS
A substantial proportion of what we do -- some even argue most of what we do -- is guided by culture: what we believe in, how we dress, what we eat, who we marry, and even if we marry. Although our actions regarding these decisions may seem “logical”, normal, or simply the obvious way of doing things, you can be certain that there is another society that does things in a completely different way. In anthropology, these differences are known as cultural diversity and socio-cultural anthropologists aim at understanding, documenting, and explaining this variation among contemporary societies.

In addition to academic pursuits, information produced by anthropologists can and is also being used to solve contemporary issues. Today anthropologists are involved in a wide range of non-academic initiatives such as those related to conservation of the environment, development, human rights, and public health. There are even many applications in the business world and anthropologists are hired in the tech sector, marketing agencies, etc. For this reason, the course will also seek to encourage you to think about the ways in which anthropology can be applied to solving real world problems.

In other words the primary goal for the course is to show you that anthropology matters!

This will be achieved through four major goals:
1- To explain cultural diversity through classic and contemporary ethnographic case studies.
2- To show variation in anthropological thought and thus the wide range of subdisciplines and paradigms in anthropology today.
3- To teach you anthropology’s unique methodological tradition, from classic ethnographic approaches such as participant observation to more interdisciplinary approaches such as the use of GIS and cognitive exercises.
4- To uncover the value of sound cultural analysis in helping solve real world problems.

LEARNING OUTCOMES
As part of Carleton's assessment initiative, the SOAN Department of has identified six Student Learning Outcomes for SOAN majors. In this course you will learn four of these outcomes:

- Formulate appropriate sociological and/or anthropological research questions about socio-cultural phenomena.
- Select appropriate sociological and/or anthropological research methods to study socio-cultural phenomena.
- Apply sociological and anthropological theory to analyze socio-cultural phenomena.
• Draw upon your understanding of historical and contemporary socio-cultural phenomena to engage the world.

GRADING AND ASSIGNMENTS
Your grade during the term will be assessed through a combination of assignments and exams. More specifically your final grade will be divided into three broad sections: 1) participation and attendance, 2) exams (pop quizzes and a midterm), and 3) project-based assignments (ethnographic observations, magazine analysis and conspicuous consumption). Instructions, rational and objectives for each assignment will be clearly outlined for you before you begin and generally posted on Moodle or handed out during class.

Assignments and exams are weighed as follows:

- Participation 10%
- Attendance 10%
- Ethnographic Assignment Part 1 15%
- Ethnographic Assignment Part 2 10%
- Conspicuous Consumption Assignment 15%
- Pop Quizes (4 during class/unannounced) 20%
- Mid-term Exam 20%

LATE AND MAKE-UP POLICY
Please note that I am very strict about due dates. Unless you have a legitimate excuse for turning in an assignment late or missing and exam I will either not accept the assignment or deducts points from your grade. Although I am certainly sympathetic to emergencies I do ask you to try to let me know what is happening before the assignment or exam comes around in order to avoid misunderstandings.

ACADEMIC INTEGRITY
You are expected to adhere to Carleton’s code of academic honesty. Even in the event of participating in team projects, your final work should still reflect your own ideas and other people’s ideas should always be credited. If you have any questions regarding this policy please visit http://apps.carleton.edu/campus/doc/integrity/ or come speak to me. Failure to follow Carleton’s expectation will result in a failing grade and formal action with the administration.

OFFICE HOURS AND COMMUNICATIONS
I hope you will all come see me during office hours to discuss the course, ideas for projects, or career plans. Interacting with students is one of the aspects that I most enjoy about my job so please DO NOT BE SHY and take advantage of office hour! If you cannot make office hours let me know and we can always schedule an alternative time, or even go out to lunch through the dinning services “take a prof out to lunch” scheme (it is free to both of us and we get three a term).

Regarding email please note that I will try to answer emails within a 24 hr. period and I do not tend to answer emails during the weekend (late Sundays are often the exception but do not expect it). I also do not text with students so please do not try because I will probably miss them.
Finally, although I encourage you to contact me via email with questions, if the question requires a long answer I may ask you to come see me personally so I can give you a proper response.

**ADDITIONAL RESOURCES**

If you need any help dealing with the requirement of the course please let me know so I can direct you to the multitude of resources available to you at Carleton. Although I will be posting relevant resources to individual assignments do let me know if you are having trouble taking notes, studying for the exam, writing up assignments, stress, etc. I will be more than delighted to help direct you and work with you with what you need.

In case you are interested in exploring your options on your own, a comprehensive list of resources can be found here: [https://www.carleton.edu/student/support/](https://www.carleton.edu/student/support/)

**LIBRARY:** Worth mentioning is our fabulous library staff, in particular Kristin Partlo (the social sciences reference librarian). If you have any questions or need help finding resources for the class, she is a great resource. You can email her at: kpartlo@carleton.edu.

**COURSE READINGS**

Readings will be posted in Moodle with the exception of the two ethnographies, which are available in the bookstore for purchase. You are expected to complete the assigned readings by class time and come prepared to participate in class discussions. Please note that some weeks have heavier readings loads than others, for this reason I suggest you pay attention to reading guidelines discussed in class. Also remember that I may change readings depending on class interest and progress so follow postings on Moodle rather that on this initial schedule.

## COURSE SCHEDULE
