Dear all,

Last reminder, if you haven't completed your arrival form yet, please do so (http://apps.carleton.edu/intl/). Again, all students on F, J, or any other visa status are required to attend ISO. If you are US resident or citizen, you are not required to attend but please confirm with me if you are not attending, otherwise your Arrival Form serves as confirmation (we need it for everyone).

1. Arrival on Wed, Aug 31 - if your flight is delayed due to the storm that has hit the eastern U.S., please let me know on that Wednesday. We hope that all of you arrive safely.

2. Check-in - Everyone will be checking into Parish House after which you will check into the room assigned to you for the year. A few of you will be going into temporary housing for a couple of days (we'll tell you upon arrival) until your permanent room is available.

3. Opening dinner is Thu, Sep 1 (please see the schedule at above link). Apologies on our part where the date has not been updated. If friends or family are joining you for the dinner, they should say their good byes before the dinner.

4. Academic related items:
   a. Please make sure you read the "Introduction to American Academic Writing" material before Friday, Sep 2's session, link is available at our home page above; b. Carleton has a language requirement - those of you who are bilingual and can demonstrate it, can seek exemption of this requirement by visiting here https://apps.carleton.edu/campus/doc/information_students/language_requirement/.
   c. Final secondary transcript - those of you who are studying at Carleton for 4 years do need to present your final secondary transcript. If you have not sent it, please bring it with you.

5. Health item:
   a. All students on F, J, or other visa status are required to purchase the Carleton Student Health Insurance. If you didn't sign up by Aug 15, your account was billed but you should still sign up in order to obtain your health insurance card. We'll talk more about it at orientation.
   b. If you have not submitted your Medical History Report, http://apps.carleton.edu/studenthealth/newstudents/, please print and have your doctor complete it. Bring it with you and we'll collect it for the Student Health & Counseling Center (SHAC).

You have my cellphone number if you run into an emergency on Wednesday.

Here are all previous emails, http://apps.carleton.edu/intl/arriving/letter1/.

Finally, if you haven't already gotten it, don't forget the small gift for the exchange.

Safe travels. Luyen
