May 2013

Dear Carleton Parents,

We are eagerly preparing to welcome your student to Carleton this fall. This is an exciting time for you and your student and we are ready to assist with the success of your Carleton experience. This mailing includes information that will provide more information about the College as a whole, and is the last coordinated paper mailing you and your student will receive from Carleton this summer. This is Mailing #2, “Information for Parents.”

Mailing #2 includes the following insertions which should be reviewed and acted upon as needed:

- Information about the online Family Guide from the Parents Advisory Council
- Student Accounts and Tuition Information Guide
- Convenient and “Green” Travel Options

In the first mailing, your student received a Mailing Checklist, outlining critical deadlines as well as many valuable links. Another copy of this checklist can also be found on the New Student Website, at www.carleton.edu/student/new.

We would also like to alert you to an important way for you to connect with the broader Carleton College community, through the Parent Resource Questionnaire. It is located online at: http://go.carleton.edu/parentQ.

Responding to this survey indicates to Carleton staff how you might participate in the community. As Jeff Jackson and Sally Warren, former chairs of our Parents Advisory Council, wrote, “Through volunteer roles we’ve come from having little background with the Carleton experience to feeling that we’ve contributed to the growth of the institution, gotten to know a fascinating group of Carleton faculty and staff and supported our daughter’s own experience at the College. Engaged students need the support of engaged parents. Please check the boxes where you think you can most effectively work with the Carleton community.”

We will be reaching out to your student periodically this summer through (roughly) bi-weekly emails beginning on June 19. These e-mails will be sent to your student’s Carleton email address, and will include information about Carleton and reminders about upcoming actions the students must take prior to matriculation this autumn (e.g., register for classes, pay tuition). If you would like to receive a courtesy copy of these messages, please visit the following web page to sign up – http://go.carleton.edu/summermail.

We are looking forward to another exciting year at Carleton. See you in the fall!

Sincerely,

Hudlin Wagner
Vice President for Student Development
& Dean of Students
