Campus offices offering programs virtually

Even though many students are now interacting with campus remotely, the Division of Student Life has continued to find new ways to help students access the services they need, from the Career Center to SHAC to the Academic Support Center.

The Student Activities Office has worked to keep students connected with weekly offerings like writing prompts, trivia, and a Carleton Dance Off Series, where students show off a dance move on their Instagram account (last week was the "Moonwalk").

If your student is looking for some exercise, the Rec Center is offering a full schedule of daily virtual workouts, both live and pre-recorded, as well as one on one personal training (fee required).

COVID-19 updates and FAQs

Questions about Carleton’s response to COVID-19 or information about specific policies that affect your student on- or off-campus can be found on this website. We’re compiling information, including the most recent messages from college leadership and answers to your frequently asked questions. The FAQs are regularly updated as the situation evolves, and we recommend that parents check it every few days.

The site has recently been updated to reflect President Poskanzer’s announcements about the remainder of spring term and Commencement. We have also received a number of questions about the student health insurance policy and SHAC service this spring, and recommend that parents review the updated “Services & Support” section in the FAQs for students.

Carleton daffodils in bloom

While the spelling is different from the College's, the blooming of the Narcissus Carlton (as the flowers are formally known) was a welcome sign of spring on campus this week.
